Product specifications

Summary

RAM	32 GB DDR5
Voltage	1.1 Volts
Column Address Strobe Latency	CL40
Form Factor	SO-DIMM
Model Name	Kingston Fury Impact
Data Transfer Rate	5600 Megabits Per Second
Number of Pins	262
Memory Form Factor	SODIMM
UPC	740617331646
Memory Generation	DDR5
Manufacturer	Kingston Technology Company, Inc.
Global Trade Identification Number	00740617331646

Other Technical Details

Item model number	KF556S40IBK2-64
------------------------------	-----------------

Item Weight	0.537 ounces
Product Dimensions	2.74 x 0.15 x 1.18 inches
Item Dimensions LxWxH	2.74 x 0.15 x 1.18 inches
Color	Black
Computer Memory Type	DDR5 SDRAM
Language	English
ASIN	B0BRTJT5P2
Country of Origin	Taiwan
Date First Available	January 9, 2023

Warranty & Support

Amazon.com Return Policy: You may return any new computer purchased from Amazon.com that is "dead on arrival," arrives in damaged condition, or is still in unopened boxes, for a full refund within 30 days of purchase. Amazon.com reserves the right to test "dead on arrival" returns and impose a customer fee equal to 15 percent of the product sales price if the customer misrepresents the condition of the product. Any returned computer that is damaged through customer misuse, is missing parts, or is in unsellable condition due to customer tampering will result in the customer being charged a higher restocking fee based on the condition of the product. Amazon.com will not accept returns of any desktop or notebook computer more than 30 days after you receive the shipment. New, used, and refurbished products purchased from Marketplace vendors are subject to the returns policy of the individual vendor.

Manufacturer's warranty can be requested from customer service. [Click here to make a](#)

From the manufacturer

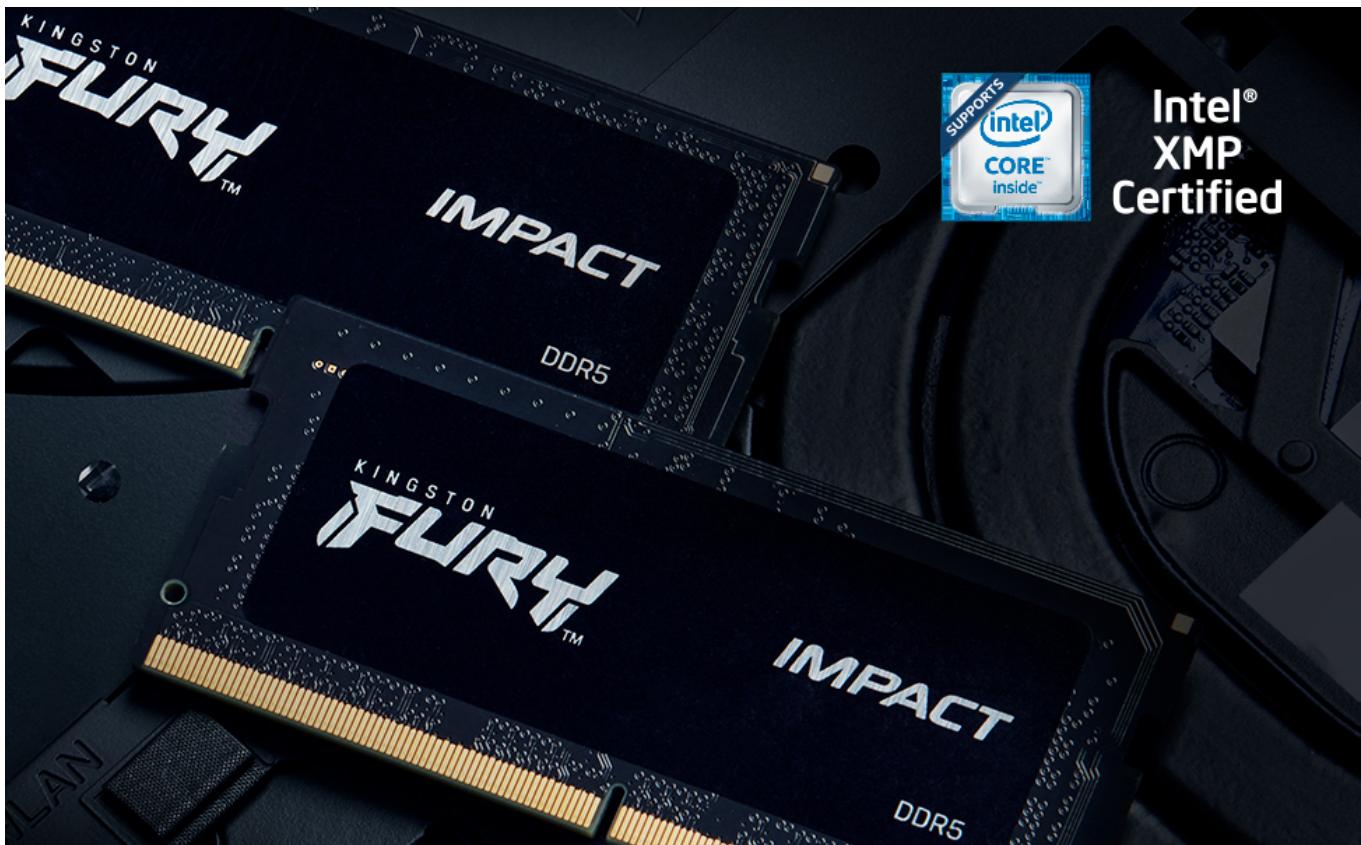

Mighty DDR5 SODIMM Performance

50% faster than DDR4 for a boost in gaming, rendering, and multitasking.

Plug N Play Automatic Overclocking Functionality

Kingston FURY Impact DDR5 automatically overclocks to the highest listed speed.

Intel XMP 3.0 Certified

Maximize memory performance with advanced pre-optimized timings, speed and voltage for overclocking.

Lower Power Consumption, Increased Efficiency

Keep your system cool and efficient with Impact DDR5's low 1.1V power draw.

Improved Stability with On-Die ECC

Maintain data integrity while hitting overclocking speeds.

From the brand

Kingston's journey is a testament to the power of commitment and the pursuit of quality. From that humble beginning, we've become a leading global manufacturer of memory and storage solutions. Our products are trusted to power the technology that drives the world, from the largest data centers and cloud providers to cutting-edge smart devices and personal computers.

How did we get our start?

In 1987, two visionary engineers, John Tu and David Sun, saw an opportunity amidst a global technology crisis. Facing a severe shortage of surface mount memory chips, they didn't just meet the demand—they redefined industry standards. What began as a garage startup fueled by determination and ingenuity has grown into a global technology powerhouse.

What makes our products unique?

Kingston has built a reputation for producing reliable and trustworthy products. Businesses and consumers alike trust Kingston to provide solutions that perform consistently over time.

Customer reviews

 4.8 out of 5 >

1,275 global ratings

Customers say

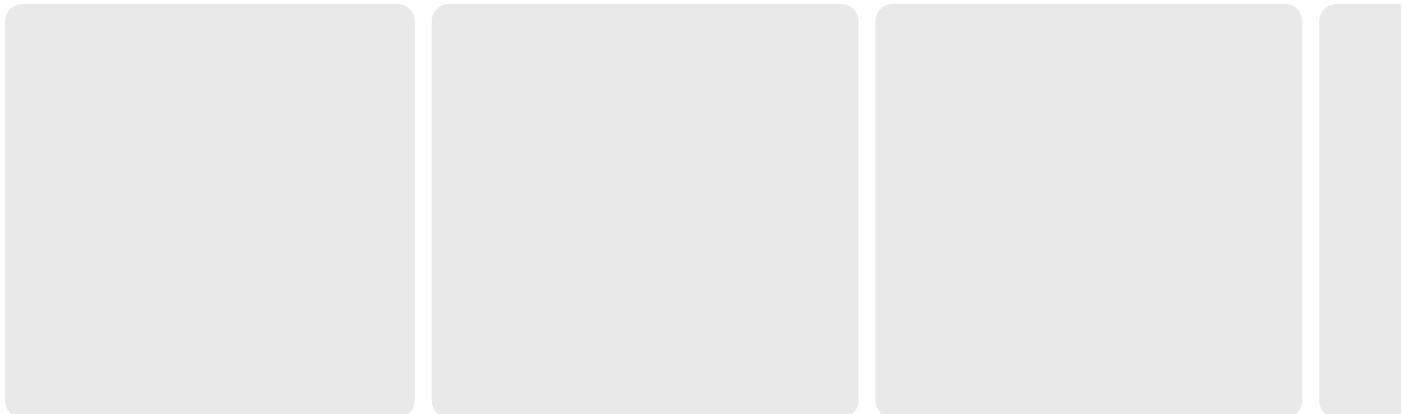

Customers find the RAM kit works well with Alienware laptops and provides a definite uptick in performance, running at 5600MHz speed. The installation process is straightforward, with successful integration in AMD systems, and customers consider it an excellent upgrade for AMD-based laptops. They appreciate its memory capacity, noting it can handle 20-23GB of RAM, and find it stable and worth the price. Customers like its compatibility, with one mentioning it works well with Dell XPS 15.

Great 64gb Ram upgrade for a gaming laptop and heavier workloads.

Reviewed in the United States on February 13, 2025

Style: Kit of 2 | Size: 64gb

This is high quality memory. It's Kingston "dual rank" 64GB DDR5 5600mhz ram (CAS LATENCY 40-40-40-84 @ 5600mhz) because single 32GB DDR5 sticks are all dual rank, and anything lower (16GB/24GB) is single rank. A 13th and 14th gen intel chip can accommodate 32GB... [See more](#)
